

Kigali, on 20th September 2020

Rainfall forecast from 21st to 30th September 2020

The rainfall expected between 21st and 30th September 2020 will likely increase compared to the previous dekads of September 2020 and will range between 20 and 100mm. The Eastern Province and Kigali City are expected to receive rainfall ranging between 20 and 60mm which is expected to increase from eastern to western parts of the mentioned area. Southern Province is expected to get rainfall ranging between 40 and 70 mm but Northern parts of Muhanga is expected to receive up to 80mm while Nyungwe forest with its surrounding area of Southern Province are expected to receive up to 100mm. Western and Northern Provinces are expected to get rainfall ranging between 70 and 100mm but southern parts of Rulindo and Gicumbi will experience rainfall ranging between 50 and 70mm.

The expected rain marks the start of rainy season in many parts of the country and will be associated with the southward migration of the Inter-Tropical Convergence Zone (ITCZ) over region that will enhance mesoscale systems such as Lake Victoria and Congo Air Mass. The rainfall is expected on the following dates according to the area, 21st, 22nd and from 25th to the end of the forecasting period with at least 4 rainy days in the dekad in most parts of the country. The rain will be above the range of Long Term Mean of September dekad3.

Kigali, kuwa 20 Nzeri 2020

Imvura iteganyijwe hagati y'italiki ya 21 na 30 Nzeri 2020

Mu gice cya Gatatu cy'ukwezi kwa Nzeri (hagati y'italiki ya 21 n'ya 30) mu Rwanda hateganyijwe imvura iruta iyabonetse mu bice bibiri bishize bya Nzeri 2020 ikazaba iri hagati ya milimetero 20 na 100mm.
